Scouting Report: Strong, smart, quick and crafty lefty combo guard that really excels on the offensive end getting to the basket as either a distributor or scorer, with a good stroke from off the catch or dribble and a quick release. Has a mean streak to her game and is a solid on ball defender as well.

Humble and quiet girl off the court who has a strong focus on academics. She split time last season between her club team (which is equivalent to a high school level in the US) and the Under 18 National team. She was looked to play more off the ball with the Under 18 team and she showed her ability to put the ball in the basket. London, England
School: London College
Team: London Suns (club team)
Position: C/PF
Ht/Wt: 6'2", 180 lbs

Scouting Report: Skilled post with soft hands and GREAT size. Potential program changer at the right place and with the right style of play. Good length, keeps the ball high on rebounds, and can face up or score with in the paint with either hand. Main weakness is that she isn't a super athlete, however she moves well for a player of her size. Also a good kid with a bubbly personality who will need Junior College unless her test scores improve but definitely worth a look in case that happens. Contact her directly to request additional highlight video or full game film.
